THIS WAY
THIS SIDE UP

Page 1
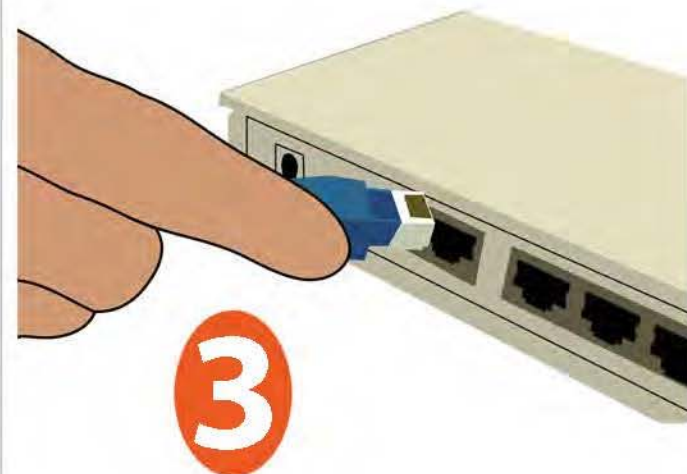

**3** Plug ethernet cable into WAN port of the i1.

4 Plug other end of ethernet cable into a switch

5

Connect the power cord to the i1 power adapter, then plug it into an outlet.

6

Connect the power adapter to your i1.

Your i1 Telephone System will boot for about 2 minutes

Once booted, blue PWR light will be steady and green WAN port light will flash.

**Assemble the telephones per the manufacturers instructions**

7
